## B. SESSION SUMMARY: (Below, or see summary and worksheets attached)

Site seemed to have many shaped objects. One object was long with a circular object either beside it or going through it. There was a feeling of a large circle with men around it working. Men at the site pull an object up from the ground. A feeling of hard ~~work~~ physical work at the site. I was outside. It was warm + breezy. Men dressed casual. The letters or word E L M surfaced.

There was a tall pointed structure at the site. It was white or light in color and it seemed old.

Sometimes it seemed that the objects were moving. big objects sideways through doors.
